OUR PRIORITY: HELPING YOU CREATE A BEAUTIFUL LANDSCAPE

Thank you for your interest in Dekorra Products and our extensive line of rock enclosures. We manufacture artificial rocks that conceal a variety of unsightly devices found in city, rural, residential and commercial landscapes.

We design our products with specific purposes in mind. You’ll see how our expertise provides a quality product and a real solution. From well and septic applications to outdoor lighting and irrigation, we’ve thought of all the possibilities. Take a look inside—you’ll find a rock enclosure to fit perfectly over anything you want to hide.

With incredible aesthetics and a unique flange design that allows our enclosures to be secured to the ground with stakes, it’s no surprise our products have received patents. When they’re installed with secure anchors and surrounded by landscaping stone or mulch, it’s virtually impossible to distinguish our products from real rock.

If you have any questions regarding any of our rock enclosures, please contact us—we’ll be glad to help you find the perfect solution.

Russell W. Dresen, Owner

Roy Bailey, Owner
REALROCK™: OUR NEWEST MATERIAL IS INCREDIBLY REALISTIC.

We’re excited to present top-quality rock enclosures made with our all-new textured material, RealRock™. This gritty, tough, and variegated rock-like surface is astonishingly realistic, and blends in with other natural textures—you truly have to see it to believe it.

With RealRock™, not only do you achieve incredibly realistic aesthetics, but also unmatched longevity in virtually any climate. In fact, this new material is so good, we’ve incorporated it into our entire product line. Very simply, it’s state-of-the-art.

The bottom line? With Dekorra enclosures, no one will know you have something to hide.

WHY USE DEKORRA ENCLOSURES?
- New RealRock™ material provides the most realistic rock enclosure available anywhere
- Commercial-grade construction stands up to the elements
- Color and texture is part of the material, not painted on
- They come in two versatile colors, many shapes and sizes
- They’re lightweight, easy to move, and incredibly durable
- They won’t fade in sun or crack in cold weather
- They’re constructed of recyclable materials
- Made in the USA
- Anyone can easily install them
- Heavy-duty ground stakes are supplied with each rock
- Nesting feature allows for efficient storage and display
- Some models carry ASSE certification

All models available in two colors

Riverbed is variegated brown with rich combinations of natural dark tones and multicolor highlights.

Fieldstone is soft grey with a rich combination of natural tones and multicolor highlights.

Effective fastening system

Our patented flange design secures the enclosure to the ground. Heavy-duty stakes are included with each model.

Built to last

The sturdy reinforced edge around the bottom of each model adds weight and strength our competitors don’t offer. Ours can withstand 100 lbs per square foot!

All rock enclosures nest together—very little floor space is needed for inventory.
A note about measurements: Length and width measurements for each product are taken at the base. The height measurement is the highest point of each rock. Because the shapes are irregular, these measurements are guides for how large an item will fit under the enclosure. If you have any questions about whether an item will work with a particular rock, please contact us and we will assist you.

MODEL 101 - Classic shape with generous dimensions
- Well/Septic up to 18" Tall
- Centrifugal Pumps
- Small Pump Systems
- Backflow Assemblies

Dimensions: 31"L × 26"W × 21"H, WT: 8 lbs

MODEL 102 - Taller profile for vertical applications
- Well/Septic up to 24" Tall
- Utility Pedestals
- Small Pump Systems
- Backflow Assemblies

Dimensions: 27"L × 21"W × 25"H, WT: 8 lbs
MODEL 103 - A large rock for covering items of size
- High Profile Septic Risers, Holding Tanks and Manholes up to 30” in Diameter and up to 20” tall
- Backflow Assemblies up to 2” in Diameter
- Pumping Systems
Dimensions: 56’L x 42”W x 30”H, WT: 28 lbs

MODEL 104 - Our largest rock can hide almost anything
- Pressure Tanks up to 38” tall
- Well Assemblies
- Electrical Transformers
- Pool Filter and Pump Equipment
Dimensions: 60’L x 48”W x 41”H, WT: 39 lbs

MODEL 105 - Has a flat face to accommodate a plaque
- Address Plaques
- Curb Stops
- Outdoor Electrical Outlets
- Septic/Sewer Cleanouts
Dimensions: 24’L x 12”W x 12.5”H, WT: 2.5 lbs

MODEL 106 - Smaller square rock
- Vent Pipes up to 10” tall
- Septic Cleanouts
- Curb Stops
- Outdoor Electrical Outlets
Dimensions: 19’L x 14”W x 12”H, WT: 2.5 lbs

MODEL 109 - Fits over many medium size objects
- Small Pumps
- Valve Box Lids
- Pond Filters
- Aeration Devices
- Well/Septic Pipes up to 12” tall
Dimensions: 30”L x 23”W x 18”H, WT: 4 lbs

MODEL 110 - Rectangular shape ideal for backflow systems
- Backflow Assemblies up to 2” in Diameter
- External Water Pumps
- Address Plaques
Dimensions: 39”L x 21”W x 21”H, WT: 10 lbs

MODEL 111 - Taller round shape for larger septic applications
- Medium Profile Septic Risers and Manholes up to 30” in Diameter and 12” in Height
- Will Cover 30” Lids or Risers with a Junction Box
Dimensions: 34”L x 32”W x 15”H, WT: 12 lbs

MODEL 112 - Great for large diameter, low profile items
- Low Profile Septic Risers and Manholes up to 30” in Diameter and 7” in Height
- Grease Traps
- Will Cover 30” Lids with Junction Box
Dimensions: 36”L x 36”W x 9”H, WT: 12 lbs
A WELL PIPE DOESN’T HAVE TO RUIN YOUR VIEW.

With the large investments homeowners make in landscaping, precise attention to detail is always part of the job. But what about that wellhead that sticks up right in the middle of the flower garden?

With a lightweight, extremely durable and incredibly realistic rock enclosure, an exposed pipe will blend right in with your existing landscaping. They quickly turn an obvious eyesore into a beautiful finished appearance.

Installation is simple—just place the Dekorra® rock enclosure over a wellhead or pressure tank and secure it with the provided ground stakes. Then add decorative stone, mulch and plants—the results are remarkable.

KEEP IT WARM
Use optional tank insulation rings and pouches. See page 15 for details.

Dekorra® RealRock™ material color choices
- FS - Fieldstone
- RB - Riverbed

MODEL 101
Length 31 inches
Width 26 inches
Height 21 inches
Weight 8 pounds
Wells up to 18” tall

MODEL 102
Length 27 inches
Width 21 inches
Height 25 inches
Weight 8 pounds
Wells up to 24” tall

MODEL 103
Length 56 inches
Width 42 inches
Height 30 inches
Weight 28 pounds
Constant pressure systems

MODEL 104
Length 60 inches
Width 48 inches
Height 41 inches
Weight 39 pounds
Pressure tanks up to 38” tall

MODEL 109
Length 30 inches
Width 23 inches
Height 18 inches
Weight 4 pounds
Wells up to 12” tall
DON’T LET EXPOSED PIPES SPOIL A BEAUTIFUL LANDSCAPE.

When backflow systems are installed above grade, the exposed pipes, booster pumps and valve boxes can really detract from the landscaping.

That’s why several Dekorra® rock enclosures are available with full ASSE 1060 certification, the standard for outdoor enclosures for backflow prevention assemblies. Please contact us for details.

MODEL 102
- Length: 27 inches
- Width: 21 inches
- Height: 25 inches
- Weight: 8 pounds
- Backflow Dimensions: RP 19”L x 23”H; PVB 14”L x 24”H

MODEL 103
- Length: 56 inches
- Width: 42 inches
- Height: 30 inches
- Weight: 28 pounds
- Backflow Dimensions: RP 42”L x 16”H; PVB 24”L x 27”H

MODEL 104
- Length: 60 inches
- Width: 48 inches
- Height: 41 inches
- Weight: 39 pounds

MODEL 109
- Length: 30 inches
- Width: 23 inches
- Height: 18 inches
- Weight: 4 pounds

MODEL 110
- Length: 39 inches
- Width: 21 inches
- Height: 21 inches
- Weight: 10 pounds
- Backflow Dimensions: RP 26”L x 14”H; PVB 16”L x 20”H

INSULATED POUCH 602-GN
- 24”L x 24”H Insulated pouch can be placed over pipes to protect from the cold. Compatible with Models 101, 102 and 110. Two years UV protection when used without an enclosure.

INSULATED POUCH 603-GN
- 48”L x 24”H Insulated pouch can be placed over pipes to protect from the cold. Compatible with Models 103 and 104. Two years UV protection when used without an enclosure.

INSULATED RING 604-GN
- 48”L x 24”H Insulated ring can be placed around pressure tanks to protect from the cold. Compatible with Models 103 and 104. Two years UV protection when used without an enclosure.

All Insulated Pouches and Rings have an R-13 value.

HEATING CABLE 751-HTP
The Guardian W51 pre-assembled electric heating cable is six feet in length. Intended for installation on metal or plastic pipes for freeze protection.

INSULATION Pouches and Rings have R-13 values.

ASSE Certification Available

SEPTIC APPLICATIONS
EVEN LARGE ITEMS CAN BE CONCEALED QUICKLY AND EASILY.

We feature several models that cover large septic risers, commercial grease traps, holding tanks and manholes. So instead of eyesores, you can blend them right into the landscape with models 103, 111 and 112.

Smaller rocks can be used to cover septic cleanouts and vent pipes, while models 101 and 109 are perfect for concealing blowers and compressors.

MODEL 102
Length 27 inches
Width 21 inches
Height 25 inches
Weight 8 pounds
Vent pipes up to 24” tall
Compressors or blowers

MODEL 106
Length 19 inches
Width 14 inches
Height 12 inches
Weight 2.5 pounds
Vent pipes or cleanouts up to 12” tall

MODEL 101
Length 31 inches
Width 26 inches
Height 21 inches
Weight 8 pounds
Vent pipes up to 18” tall
Compressors or blowers

MODEL 103
Length 56 inches
Width 42 inches
Height 30 inches
Weight 28 pounds
Risers with junction box up to 30” diameter, 20” tall

MODEL 109
Length 30 inches
Width 23 inches
Height 18 inches
Weight 4 pounds
Vent pipes or cleanouts up to 12” tall
Compressors or blowers

MODEL 111
Length 34 inches
Width 32 inches
Height 15 inches
Weight 12 pounds
Lids up to 30” diameter, 12” tall with junction box

MODEL 112
Length 36 inches
Width 36 inches
Height 9 inches
Weight 12 pounds
Lids up to 30” diameter, 7” tall with junction box
Dekorra® rock enclosures perfectly conceal a variety of items in virtually any landscape—commercial or residential. From large items to small, our big selection of sizes and shapes means there’s an enclosure that’s exactly right for almost any application. Don’t settle for less: Choose the industry’s best appearance, tough and durable RealRock™ material, and a long-term solution that works.

Some examples of specialized applications:
- Satellite
- Cable boxes
- Telephone pedestals
- Pool/Pond filters and pumps
- Low voltage lighting transformers

AN ADDRESS PLAQUE ADDS A TOUCH OF CLASS.

A custom engraved address plaque adds a subtle touch to almost any landscape. Just mount the plaque to the flat side of models 105 and 110 and you’ve created a beautiful and functional addition to the home. Of course, mounting hardware is included with each plaque. Plus, if you need a unique size, just contact us—custom sizes are also available. Call us for details or visit our website at www.dekorraproducts.com.
ACCESSORIES FOR ROCK ENCLOSURES

Some rock enclosure applications require special accessories. Cold weather areas can require insulation for pipes, pumps or other utilities. Vents can be used in a variety of applications as well.

**HEATING CABLE 751-HTP**
The Guardian W51 Pre-assembled electric heating cable is six feet in length. Intended for installation on metal or plastic pipes for freeze protection. Heating cables come complete and ready to use with 30 inch power cord and plug.

**3” VENT LOUVER 711-CP**
**4” VENT SCREEN 712-CP**
Vents can be used for ventilation of rock enclosures. Please specify color (Riverbed or Fieldstone).

**ACCESSORIES FOR ROCK ENCLOSURES**

**INSULATED POUCH 602-GN**
24”L x 24”H **Insulated pouch** can be placed over pipes to protect from the cold. Compatible with Models 101, 102 and 110. Two years UV protection when used without an enclosure.

**INSULATED POUCH 603-GN**
48”L x 24”H **Insulated pouch** can be placed over pipes to protect from the cold. Compatible with Models 103 and 104. Two years UV protection when used without an enclosure.

**INSULATED RING 604-GN**
48”L x 24”H **Insulated ring** can be placed around pressure tanks to protect from the cold. Compatible with Models 103 and 104. Two years UV protection when used without an enclosure.

All Insulated Pouches and Rings have an R-13 value.

**ASSE CERTIFICATION**

Several of our rocks are available with full ASSE 1060 certification, the standard for outdoor enclosures covering backflow prevention assemblies. We can prepare enclosures to meet these specifications. Look for the yellow ASSE symbol in our catalog that indicates which enclosures are available with ASSE certification.

**KEEP THE ROCKS ROLLING WITH DEKORRA PROMOTIONAL MATERIALS.**

Need some help with promotional materials? Call us! Whether you’d like a countertop brochure display constructed of our new RealRock™ material, or catalogs of our entire line, we’re here to help. We also feature cool t-shirts and banners, sure to grab attention. Call us today and keep the rocks rolling!
